

# IRB Net

## IRB Net is for two main needs:

### Downloading IRB Forms

IRBNet gives access to all research protocol forms. Step-by-step instructions to create an IRBNet account.

**Note:** When logged in, forms can be accessed from the Forms and Templates button on the left sidebar (underlined in yellow in the image below). **Be sure** to use the pull down menu to select the correct library of forms (Select a Library).

The screenshot shows the IRBNet website interface. At the top, there is a navigation bar with various icons and links. Below this is a header section with the IRBNet logo and a banner image. The main content area is titled 'Forms and Templates' and contains a message about library availability. A dropdown menu labeled 'Select a Library:' is highlighted in yellow, showing the selected library: 'Mission Health Institutional Review Board, Asheville, NC - Documents for Researchers'. Below this, there is a table of documents in this library.

- If you plan to do retrospective chart review, use the *Study Protocol- Medical Records Research* form
- Surveys or other benign interactions should use the *Study Protocol- Minimal Risk Research* form
- If your research involves an *intervention* or *interaction* with subjects, you likely need an *Expedited* or *Full* protocol form
