

Step by Step: Mission Hospital/HCA data and/or Survey of Mission inpatients

Use this page for:

All studies using **Mission/HCA data** and/or survey of **Mission patients/residents**.

Online training in protection of human subjects.

CITI Program

Create an account with IRBNet and download a protocol template.

How to use IRB net

Submit research protocol to CARRIE to screen for exemption or IRB review.

A. If you are using Mission Data *and have a GME researcher (i.e. Resident/Fellow)*, you will submit to CARRIE Screening via IRB Manager

B. If you are a researcher in the MAHEC Dental department OR using Mission Data *but **do not** have a GME researcher*, you will submit to the Mission IRB via IRBNet.

After IRB exemption or approval, data collection may begin.

A. If you are using Mission Data *and have a GME researcher (i.e. Resident/Fellow)*, you will submit to DataClear to request data.

B. If you are a researcher in the MAHEC Dental department OR using Mission Data *but **do not** have a GME researcher*, you will collect/request data with HIPAA protections in mind.

All research done with Mission Data requires clearance before dissemination of results.

This requirement applies to **abstracts, posters, presentations, manuscripts, and all other dissemination** of research results outside of MAHEC and/or Mission hospital.

A. If you are using Mission Data *and have a GME researcher (i.e. Resident/Fellow)*, you will submit to PubClear for review.

B. If you are a researcher in the MAHEC Dental department OR using Mission Data *but **do not** have a GME researcher*, you will submit to External Data Release for review.
